

TO OUR CUSTOMERS

COVID -19 Update

March 27, 2020

Chris Electronics Distributors is an 'essential' supplier of electronic components, and we are staffed to process and ship orders during the COVID-19 crisis.

We are prepared to assist and support you in any way possible. We have many safeguards in place. We're cautious, but we're optimistic and ready to handle whatever request comes our way, whether it's routine or falls in the ever-so-complicated category.

We've adopted all the recommended protocols of the Centers for Disease Control, plus a few extra for safekeeping. (If you want details, just let us know.) We also have in place a contingency plan that enables us to meet your critical needs for products, services and on-time deliveries. For example, part of this plan involves a network we developed of alternate and secondary sources that we can use and recommend.

We understand your concerns, and we hope our actions underscore our commitment to do whatever it takes, within our powers, to keep our employees safe and our products and services intact.

Everyone stay safe --

From the Chris Electronics team

You have our full participation and cooperation. If we can be of further assistance, please let us know.
